

Why are there areas of low oxygen off Oregon's coast?

Why is ocean acidification hitting the Northwest harder than other parts of the world?

How is it affecting shellfish and other marine life in Oregon?

What can we do about it in Douglas County?

Douglas County Global Warming Coalition presents

CLIMATE CHANGE AND THE HEALTH OF OUR OCEAN

Earth Day

April 22, 6:30 p.m.

Douglas County Library

Hear from a panel of experts

From Oregon State University:

- Dr. Jack Barth, Professor of Oceanography
- Dr. Burke Hales, Professor, Chemical Oceanography
- Dr. George Waldbusser, Asst. Professor, Ocean Ecology, Biogeochemistry

For information call 541-672-9819

Co-Sponsored by: *The Steamboaters • Pacific Rivers Council • The North Umpqua Foundation • Oregon Shores Conservation Coalition*
